Footnotes
• Approximate initial lumens after 100 hours operation. • The life ratings of fluorescent lamps are based on 3 hr. burning cycles under specified conditions and with ballast meeting ANSI specifications. If burning cycle is increased, there will be a corresponding increase in the average hours life. • Rating for OSRAM SYLVANIA Circline lamps are based on operation in Rapid Start circuits. They will also operate on preheat circuits. • Minimum starting temperature is a function of the ballast; consult the ballast manufacturer.
